The Alberta Institute of Agrologists

(Incorporated March, 1947)

1963

EDMONTON, ALBERTA

The Alberta Institute of Agrologists

The Alberta Institute of Agrologists is an organization of practising agrologists, operating under the provisions of the Agrologists' Act, Chapter 19, 1947 Statutes of Alberta, and provides a medium through which agrologists can render greater service to our agricultural industry. Its personnel is essentially university graduates in Agriculture who are engaged in technical or scientific work. The Institute is affiliated with the Agricultural Institute of Canada and all members of the Alberta Institute of Agrologists are also members of the Dominion organization.

Objects of the Institute

- (a) To organize and unite all workers in scientific and technical agriculture, so that they may combine efforts to promote the scientific and practical efficiency of the profession and to make the profession of increasing service to the agricultural industry;
- (b) To maintain high standards in the profession;
- (c) To encourage a national policy of agricultural research;
- (d) To help to procure for scientific work in agriculture greater financial support and wider fields of usefulness;
- (e) To aid in securing and maintaining a closer co-operation among all workers engaged in the profession of agriculture in Alberta, and better co-ordination of their work;
- (f) To aid in bringing about a closer co-operation between the profession as an organized body and the various agricultural associations throughout Canada;
- (g) To serve as a medium where progressive ideas for improvements in agricultural education, in-

vestigation, publicity and extension work can be discussed, formulated and recommended for adoption when deemed advisable;

- (h) To aid in ensuring the useful employment of Agrologists.

Organization of the Institute

A Council of twelve, composed of eleven elected members and the Provincial Director of the Agricultural Institute of Canada, is responsible for conducting the affairs of the Institute: this includes the registration of Agrologists-in-training, the admission of candidates through an examination board appointed by the University of Alberta, and the discipline of members under the following Code of Ethics:

1. The Agrologist shall carry on his work in a spirit of integrity and courtesy.
2. He shall refrain from associating with or allowing his name to be used by an enterprise of questionable character.
3. He shall avoid making misleading statements.
4. He shall practise only in those fields of agriculture in which he is qualified.
5. He shall not use unfair means to win advancement for himself or to injure the prospects of any person from securing or holding employment.
6. He shall endeavour to keep abreast of the advances in scientific agriculture pertaining to his field.

Definition of Practising Agrology

"Practising agrology" means engaging in a professional capacity in investigating, teaching, demonstrating, experimenting in or advising on scientific principles and practices relating to:

1. the cultivation, production, improvement, use and protection of agricultural plants;
2. farm forestry;

3. the raising, feeding, improvement, use or protection of farm animals, poultry or bees;
4. the production and protection of milk and its products;
5. the classification, cultivation, use, fertilization, conservation and improvement for agricultural purposes of arable, forest and range lands;
6. the making of economic surveys of any aspect of the agricultural industry;
7. the management of farms;
8. the agricultural use of machinery and equipment;
9. the investigation and control of agricultural plant and animal pests.

RECOMMENDED SCHEDULE OF MINIMUM FEES TO BE CHARGED BY CONSULTING AGROLOGISTS

General Conditions

The schedule of fees given herein are intended to be the **minimum rates** to be charged for Agrologist services conforming to the classifications described. However, due to the wide variety of professional services rendered by Agrologists, it is not practicable to set out a detailed schedule of fees applicable to all possible types of work performed, and therefore the rates listed shall be used as a guide, and may be modified to suit special cases, having in mind that:

- (a) The Agrologist is entitled to a fair rate of compensation commensurate with his training, skill, experience, and time spent on the work.
- (b) The cost of professional Agrologist services to the client should be economically sound.

A day's work of an Agrologist shall be computed as seven hours. Nevertheless, when the Agrologist is obliged to go out of the city where his office is situated, his fees, when working on the per diem basis, shall be computed for each calendar day at the fixed rate, and each twenty-four hours or fraction therefor shall be considered as a whole day without taking into consideration the time actually spent on the work each day.

In the preparation of plans and reports or during supervision or management particular problems may arise which may necessitate calling a specialist into consultation. In such case the fees of the specialist, whose engagement must be authorized by the client, shall be paid directly by the client in addition to the fee of the Agrologist unless otherwise agreed upon.

In addition, and as provided in the Agreement, the Agrologist shall be reimbursed the actual cost of all disbursements made by him for expenses properly incurred in the performance of his services.

Fee Schedule

The time basis is recommended for such projects as consultation, advisory services, establishing data, research, investigation, evaluations, inspections of material or equipment, court cases and similar services.

The suggested minimum fee for an Agrologist-in-Training is \$25.00 per diem.

The suggested minimum fee for an Agrologist is \$50.00 per diem.

Community Service

It is expected that every Agrologist will patriotically and willingly render his best efforts in community service; further that he will give of his knowledge and experience to the advisory work of civic organizations and other qualified bodies, altruistically doing work for the promotion of the public welfare, without anticipating any direct personal benefit.

THE ALBERTA INSTITUTE OF AGROLOGISTS

Members as of May, 1963

- Allam, H.—10651-108 Avenue, Edmonton
Allen, H. T.—Experimental Farm, Lacombe
Anderson, D. H.—1208 Frontenac Avenue, Calgary
Anderson, J. L.—District Agriculturist, Medicine Hat
Anderson, L. J.—Box 183, Lacombe
Andrew, W. T.—Horticulture, U. of A.
Anstey, T. H.—Director, Research Station, Lethbridge
Asplund, J. M.—Animal Science Department, U. of A.
Baenziger, H.—Experimental Farm, Lacombe
Balogh, P. J.—Feed Division, Burns & Co., Edmonton
Bancroft, D. A.—10935-University Avenue, Edmonton
Baptie, R. S.—1230-10 Avenue W., Calgary
Baranyk, W. S.—V.A.V.C., Vermilion
Barton, K. H.—Richmond Dairy, 3277 Cambie Street,
Vancouver
Bauer, L.—Department of Agriculture, Edmonton
Beattie, A. W.—Provincial Extension Service, Calgary
Bell, N. F.—727-28 Avenue N.W., Calgary
Belyea, A. F.—10519-134A Avenue, Edmonton
Bentley, C. F.—Dean of Agriculture, U. of A.
Bentley, N. N.—F.A.O. for U.N. Via delle Terme di
Caracalla, Rome
Berg, E. R.—Cominco, 1230-10 Avenue S.W., Calgary
Berg, L. B.—9-11454-St. Albert Trail, Edmonton
Berg, R. R.—Genetics Department, U. of A.
Berg, R. T.—Animal Science Department, U. of A.
Berg, S. S.—R.R. 1, Ardrossan
Bergen, P.—Box 2133, Taber
Berry, W. E.—1404-108 Avenue S.W., Calgary
Birdsall, J. E.—O.A.V.C., Olds
Blakeley, P. E.—Entomology Lab. Lethbridge
Bocking, R. C.—Box 510, Stony Plain
Bocock, J. R.—Volmer, Alberta
Boulet, G. C.—Box 36, Berwyn
Bowland, J. P.—Animal Science Department, U. of A.
Bowser, W. E.—Soil Survey, U. of A.
Bratvold, O. G.—Field Crops, Legislative Building,
Edmonton
Broadfoot, W. C.—Research Station, Lethbridge
Broughton, O. J.—Alberta Wheat Pool, Calgary
Brown, J. A.—Midnapore
